**VETERINARY REPORT**

Disclaimer: This report and the findings contained herein are solely for the requester and may not be used or relied upon by any other person or entity without the express written consent of Dr Chris Lawler BVSc. The interpretation of radiographic findings, and video endoscopic recordings, may vary with the examiner, method of examination and a horse's changing condition. This is a report of the undersigned's findings on the date indicated. This report is limited to the findings contained herein and no other findings or opinions should be inferred beyond those expressly set forth herein. This report does not constitute a warranty or guarantee of any kind by Dr Chris Lawler BVSc.

Lot: 14

Horse: Tarzino x Tsarina Belle

Signalment: Bay 2yo gelding Left = ZZ Right = 2 over 9

Examined at: NZB Ready to Run – November, 2021

Vendor: Lilywhites Lodge

Requester: Ms Shannon Taylor c/- Haunui Farm

Radiographer: NZ Veterinary Associates Equine – Dr Neil Houston

Left Fore Hoof: No significant findings.

Left Fore Fetlock: No significant findings.

Left Fore Knee: No significant findings.

Right Fore Hoof: No significant findings.

Right Fore Fetlock: No significant findings.

Right Fore Knee: No significant findings.

Left Hind Fetlock: No significant findings.

Left Hind Hock: No significant findings.

Left Hind Stifle: No significant findings.

Right Hind Fetlock: There is a 3.8 x 1.6mm osteochondral fragment emanating from the dorsoproximal border of PI.

Right Hind Hock: No significant findings.

Right Hind Stifle: No significant findings.

Surgery: On the 24/6/20 Dr Alex Fowler of Veterinary Associates Equine operated on the above horse to reduce a caecocolic intersusception. The horse recovered uneventfully once a post-surgery incision infection was resolved. No resection and/or anastomoses was required during the surgery.

Comment: Rating this horse as a low, moderate or high risk to develop lameness in one of the radiographed joints or areas I would rate this horse as **low** risk.

Yours sincerely,

Dr Chris Lawler BVSc

**VIDEO ENDOSCOPY REPORT**

Disclaimer: This report and the findings contained herein are solely for the requester and may not be used or relied upon by any other person or entity without the express written consent of Dr Chris Lawler BVSc. The interpretation of radiographic findings, and video endoscopic recordings, may vary with the examiner, method of examination and a horse's changing condition. This is a report of the undersigned's findings on the date indicated. This report is limited to the findings contained herein and no other findings or opinions should be inferred beyond those expressly set forth herein. This report does not constitute a warranty or guarantee of any kind by Dr Chris Lawler BVSc.

Lot:	14
Horse:	Tarzino x Tsarina Belle
Signalment:	Bay 2yo gelding Left = ZZ Right = 2 over 9
Examined at:	NZB Ready to Run – November, 2021
Vendor:	Lilywhites Lodge
Requester:	Ms Shannon Taylor c/- Haunui Farm
Video Endoscopy:	An examination of the video endoscopy performed by Dr Neil Houston of Veterinary Associates Equine on the 11/11/21 revealed the horse to be displaying Lane grade 1 laryngeal function which is normal. No abnormalities were detected.

Yours sincerely,

Dr Chris Lawler BVSc
