### **VETERINARY X RAY REPORT**

Re: 21RTR Lot 0014 Tsarina Belle - Tarzino'19

Microchip: 985125000103810

I have reviewed these X Rays dated 12 October 2021.

They were of a standard sales series 36 views.

#### **Radiographic findings:**

Right hind fetlock small (~3.5m) dorsal P1 fragment, low risk and very amenable to surgical removal if required.

There is mild enthesiophyte formation on the dorsal aspect of the tarsometatarsal joint of the right hock - Low - no risk.

These findings can be considered of low risk for a racehorse or resale.

There were no other significant radiographic changes noted.

## **VETERINARY ENDOSCOPE REPORT**

At the request of Mark Chitty I performed an endoscopic examination on the below described horse at Haunui Farm.

21RTR Lot 14 **Tarzino/Tsarina Belle 19**

Microchip: 985125000103810

Near Side Brands: ZZ

Off Side Brands: 2 over 9

### **Endoscopic Examination and opinion thereof:**

An endoscopic examination of the laryngopharyngeal area was performed at rest.

The arytenoids were synchronous in their movements and full abduction was easily achieved (Lane Grade I). This finding is within normal limits.

No abnormalities were noted and the horse complies with clause 3.6 Endoscopic Examination of the 2021 Ready to Run Sale of Two-Year-Olds conditions of sale
