

Lot 273

Redwood x Fromage, by Zabeel Gelding

Prepared by Katrina & Simon Alexander

| | |
|-----------------------|--|
| Type | A very athletic horse with good balance. He is of lighter build at present but should develop into a classic looking individual. Good length of rein and shoulder and will continue to develop his hindquarter with time. Good walker. |
| Temperament | A kind horse that wants to please. He responds well if taken quietly and has gained confidence and thrived during his preparation. Will develop nicely if given time. |
| Work ethic | Enjoys working, in particular rhythmic rolling work, he is very light on his feet and carries himself well on a light contact. A really nice moving horse that finds pace working effortless and seemed to enjoy his fast work. Works well in company. |
| Appetite | Generally he eats well and has continued to do so post breeze ups. |
| Breeze Up | He conducted himself well on the day and I was happy with his breeze up. Was capable of running a quicker time but wanted him held together and kept balanced, has gone to the line well in a comfortable time. |
| Jockey | Sam Weatherley \ “Will be a nice horse when he strengthens. Good attitude and no fuss to ride.” |
| Post Breeze Up | Pulled up in good shape physically and mentally with legs and joints also good and no signs of any soreness. |
