Agent/Owner/Trainer: Rogerson Bloodstock

Lot 219 NZB 2023 National Weanling and Broodmare Sale

To Whom It May Concern,

This is to certify that on the 13th of June 2023, at the request of Rogerson Bloodstock New Zealand, I conducted a manual and ultrasonographic examination of the utero-ovarian tract per rectum. A visual examination of the vagina and cervix was also performed.

On this examination I found no significant clinical abnormalities.

Yours faithfully

Dr R G Hitchcock BVSc MRCVS

Note: The examination was limited to that recorded above and did not constitute a full breeding pre-purchase examination as defined by the NZ Equine Veterinary Association.
